PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student (2027 batch) with knowledge of Java, JavaScript, HTML5, CSS3 and MySQL, along with Object-Oriented Programming and basic Data Structures and Algorithms. Interested in frontend development and building practical, responsive web applications. Quick learner with good problem-solving skills, seeking an entry-level Associate Frontend Developer role to apply my skills and keep learning.

TECHNICAL SKILLS

Languages: Java, C, JavaScript
Web: HTML5, CSS3, Frontend Development, Responsive Web Design
Database: MySQL, PostgreSQL
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (Basic), Problem Solving
Tools: VS Code

PROJECTS

Edu-Track-AI – Student Attendance & Placement Monitoring System 2026 – Present

- Developing a student management system to monitor attendance, academic performance, internships and placement activities on one centralized platform.
- Enables teachers and administrators to maintain student records, track attendance, monitor placement rounds and manage company applications.
- Designed a user-friendly web interface with Java-based backend integration and MySQL database support.

Sanjeevani Care – Proposed Integrated Hospital ERP System | 2026 | Proposed

- Proposed an integrated hospital ERP system to bring patient registration, appointments, billing, pharmacy and records management into one centralized platform.
- Planned role-based modules for administrators, doctors and hospital staff, supported by a MySQL database for patient and hospital data.
- Designed to follow the same Java backend and web interface approach used in EduTrack-AI.

AI Healthcare Bot 2025 – 2026

- Developed an AI-based healthcare chatbot that provides basic health-related information and helps users with common health queries.
- Used conversational interaction to collect user-entered symptoms and give general guidance based on the input.
- Designed a simple, user-friendly interface for accessible health information.

EXPERIENCE

Java Full Stack Development Virtual Internship – **EduSkills** 2025

- Completed a virtual internship in Java Full Stack Development.
- Gained knowledge of frontend and backend web development using Java technologies.

Core Java Internship – **Squirrels Infotech, Satara** June 2024 – July 2024

- Developed understanding of Java programming, OOP concepts and basic application development.
- Improved programming and problem-solving skills through practical exercises.

EDUCATION

B.Tech – Computer Science and Engineering, Yashoda Technical Campus, Satara 2023 – 2027 CGPA: 7.15
HSC – Science, Siddhanath Jr. College, Mhaswad 2022 – 2023 | 55%
SSC, Kranti Veer High School, Mhaswad 2020 – 2021 | 85%

CERTIFICATION

Corporate Mentorship Program – VIOSA February 2024
Core Java Internship – **Squirrels Infotech, Satara** July 2024
Java Full Stack Development – Virtual Internship — EduSkills, June2025
